Field Project Report Year- 2019-2020

Name/Title of the Field Project: Visit to Railway hospital Kurduwadi as a part of B.Sc. III syllabus

synabus

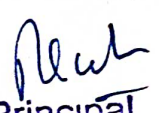

Date of Commencement: 4/12/2019	Faculty Science	Department (If any): PHYSICS		Name and Phone Number of Project Guide/s Dr. Ajinkya M More 9422733371
Date of End: 4/12/2019				
Total days for workout: 1 day	Location/Area Railway Hospital Kurduwadi	Class/group		Nature of the Project: Class room/Field/Any other
		Number of Students present	Number of teachers involved in project	
		18	4	Field

Support/ Assistance/Non-teaching staff: Mr. Bhushan Shirskar

General Information of the Field Project:

Statement of the Problem	A study various health instruments
Objective/s	To study actual demonstration of ECG and the physics behind the instruments
Methodology	Choosing one of the hospitals in the Kurduwadi and to study various aspects of ECG machine from the physics point of view. That means collection of data like frequency, heart rate. electrical activity etc
Expected Outcome	Student will understand the actual operation of ECG by demonstration

Field Project (2019-2020)
Abstract Report and Expected Outcomes

A visit to 'Railway Hospital' Kurduwadi was arranged for the student on fourth December 2019. A batch for 18 students along with faculty member Dr. A. M. More, K. A. Adhey, A. B. Sabale, C. B. Gend, A. L. Jadhav had visited the hospital. The visit started at 11:00 am from college. We boarded the Auto to reach to hospital. We reached there around 11:30 am. A group of 18 student was made and then visit to different departments of hospital like ECG and X-ray machines, Emergency services etc. was arranged, explanation each department was given during the visit. After visiting these departments we got information about ECG (electro cardio graph) by ECG operator.

He told us how to operate ECG machine, and then they showed by giving an example. Brother Atul Patil Sir told us ECG is the process of recording electrical activity of the heart over a period of time using electrodes place over the skin. He told us uses of ECG like detection of heart rate and rhythm disorders. ECG is also used as other tests to help diagnose and monitor conditions affecting the heart. It is also diagnose of a heart attack.

Brother Atul Patil Sir gave us information which is very useful for our study. We are very thankful to Brother Atul Patil Sir and all hospital staff for giving us permission to visit there hospital and gave us useful information.

Electrocardiographs detect the electrical signals associated with cardiac activity and produce an ECG, a graphic record of the voltage versus time. They are used to diagnose and assist in treating some types of heart disease and arrhythmias, determine a patient's response to drug therapy, and reveal trends or changes in heart function. Multichannel electrocardiographs record signals from two or more leads simultaneously and are frequently used in place of single-channel units. Some electrocardiographs can perform automatic measurement and interpretation of the ECG as a selectable or optional feature.

After the electrodes are attached to the patient, the user selects automatic or manual lead switching, signal sensitivity, frequency response range, and chart speed. In some units, the operator can choose the lead groupings, their sequence, and the recording duration for each group. In standard 12-lead tracings, signals from each group of leads (i.e., bipolar, augmented, precordial) can be recorded for 2.5 seconds. For a rhythm strip, one lead (usually lead II) is recorded for a full 12 seconds.

This is over all working of ECG machine. After this all participant student take photograph with Atul Patil sir.

Field Visit REPORT

2019 - 2020

**Programme Name:- To Study Lead Botanical garden of
Shivaji University**

Objective of Visit :

- 1) To know type of in-vitro conservation method of plants.
- 2) To make students aware about the various plants and their cultivation.
- 3) To Study different types of plants maintained in Botanical gardens.

A Field Visit was organized on 08/01/2020 by Botany Department for F.Y.B.Sc students. The Field Visit was of one day return nature to Kolhapur. 40 Students and 3 Teachers participated in this visit. Prof. Goyal A.M. was the In-charge. After completing all the formalities we entered the Lead Botanical garden with research students of Shivaji University as mentors for visiting student

Field Visit Report 2019- 2020

Date : 15/01/2020

Outcomes of the Field Visit

- 1) Students got knowledge about the in-vitro conservation of plants.
- 2) They could see plants which they have studied in the theory
- 3) They could visit the different sections of plant groups, maintained in Lead botanical garden and experience the different habitats required by different plants to grow
- 4) They could study the plant fossils
- 5) They were able to study many types of gymnospermic plants
- 6) They were aesthetical enlightened and experienced the rich diversity in nature.

Field Project Report

Year-2019-20

Department of Geography conducts so many Programmes such as, Guest lectures, Seminars, Conferences and study tour for the students to enrich their subject knowledge, improve their stage daring and to mold their career for bright future. As well as department tries to create awareness among the students about social values and their responsibilities to protect environment. Because of that department of geography distribute the project work among the students

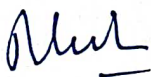

Thus in August, 2020 Department has allocated project work among the student of B.A.III. So many project topics have been suggested by Solapur University Solapur these topics are related to present social issues and Natural hazards and local issues or problems but ultimate right has been given to students to choose their topic as per their interest, comfort and Convenient. The title of the Project work was 'The Study of Changes in Land Use Land Cover of Pandharpur tahsil, Dist-Solapur' 'पंढरपूर तालक्यातील भूमी उपयोजनांच्या बदलाचा अभ्यास' Ample information has been given in classroom while teaching about Regarding Project work, Department had provided project related e-Contents, books and Magazines from college Library.

41 students have completed their projects work. The topics was related to Geographical scenario of village or town in which students are living,

A] Objectives of project work:-

- 1] Introduce the Geographical Research Techniques for the students
- 2] Promote the students to research in Geographical and Social issues of their surrounding Area
- 3] Promote the awareness among the students about environmental, Physical and social issues by authentic sources.
- 4] Create awareness among the students about importance of protection and conservation of the Natural Resources.

Head. Department of Geography

Principal

K. N. Bhise Arts, Comm. & Vinayakrao
Patil Science College,
Vidyanagar Bhosare, Dist. Solapur

- 5] Increase the Observation, Description and interpretation capacity of the students.
- 6] Feed the curiosity about local issues among students and the society.
- 7] To prepare the students to handle the surveying equipment.

B] Nature of the Research :-

Students have freedom to select the research topic as per their Convenience and interest. In Geographical Project Work includes Observation, Field work, Interpretation, Narration, and Description these research tools can be used by students. Observation, interview and questionnaire tools are used to collect data.

These project work have been checked and evaluated by Dr. Nagare V.B. Asst. Professor of the Department of Geography and examine by solapur university Examiner. Our Principal and HoD of Geography Department Dr. R. R. Patil always guide students and staff members.

C] Outcome of project work:-

- 1] Students have become well aware about different research techniques in Geography
- 2] Students have become able to demarcate the Geographical and Social issues of their surrounding Area
- 3] Students knew to find out the major environmental problem.
- 4] Students aware about importance of protection and conservation of the Natural Resources.
- 5] From this project students become able to find out there hidden quality.
- 6] Students developed there quality about how to do field survey.
- 7] The students took the knowledge to handle the Geographical surveying equipment.
- 8] Students taught to drown Maps and Charts with the help of Computers.

FACULTY OF SCIENCE

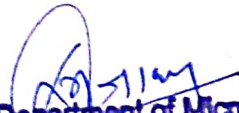

B.Sc. III Microbiology -TOUR REPORT – YEAR 2019-2020

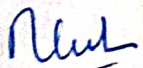

VISIT PLACES -

- 1) Pune – National Center for Microbial Resource (NCMR)
Microbiology Department, Pune University, Pune
National Center for Cell Science (NCCS)
- 2) Satara – Pratapgad Fort,
Mahabaleshwar, Strawberry farm
Mapro Garden,
- 3) Wai – Wai Ganesh Temple

Department of Microbiology organized a study tour for National Centre for Microbial Resource (NCMR) Pune, including 23 Students along with Prof. Jadhav D.B, and Ms. Minaj Mulani.

The first day of the tour was started with National Science Day. So, taking advantage of this occasion a visit to National research institutes was organized. Firstly, we visited to National Centre for Microbial Resource (NCMR) Pune. There Dr. Mahesh Chavdar Sir delivered us an introduction lecture about the NCMR and shown various departments present in the institute. Students were introduced to the DNA sequencing, Bacterial culture collection, Microbial culture preservation, Lyophilization, then students were taken to the Microbiology Department, Pune University Pune, there was the organization of a scientific exhibition, students were happy to see the interesting experiments shown in the exhibition. In afternoon students were taken to the National Center for Cell Science (NCCS) Pune. Here students observed various laboratories doing research in the field of Biotechnology, Cell Biology, Molecular Biology, Protein Engineering,

Bioinformatics, Tissue Cultures. The main idea of research institute visit was to show the current research to students.

On Second Day tour was directed to the Pratapgad Fort, which is a large fort located in Satara district, in the Western Indian state of Maharashtra. Pratapgad fort is located 15 kilometers (9.3 mi) from Poladpur and 23 kilometers (14 mi) west of Mahabaleshwar, a popular hill station in the area. The fort stands 1,080 meters (3,540 ft) above sea level and is built on a spur which overlooks the road between the villages of Par and Kineswar.

The students were then moved to head towards the Mahabaleshwar, In Mahabaleshwar students enjoyed a visit to Mapro Garden and Strawberry Farm. While returning, temple of Lord Ganesh was visited at Wai.

In all it was a good experience for students to visit National Research Institutes, it was a small effort by Department of Microbiology to make our students aware about the current research and to inculcate the good research practices in the students.

Field Project Report

Year-2019-20

Programme name of field project – शेती उत्पादनासाठी पिकांची निवड

Almost 70% Indian economy is depended directly and indirectly on agriculture sector. So rural area should give immense positive response to agri- business for their economical development. Farming is mostly cultivated by natural water resources such as rainfall. Department of Economics conducts so many programmes, lectures, seminars and conference for the students to enrich their subject knowledge, improve their stage daring and to mold their career for bright future. As well as forum tries to create awareness among the students about agriculture marketing awareness.

Thus in January, 2019 Department has given project work for each student of B.A.III. So many research topics have been suggested by faculty but ultimate right has been given to students to choose their topic as per their comfort and Convenient. Sufficient information has been given in classroom while teaching about Nature and field project steps of social science research. Researcher had been provided subject and research topic related books from college library. 13 students have completed their Field project.

A] Objectives of Research project work:-

1. To study of marketing awareness of agriculture.
2. To find the gap of productivity when the choosing crops.
3. To study geographical area of the field project.
4. To study rainfall of the field project area.
5. To study the varieties of crops specially selected field project.

Head, Department of Economics
KNPAC & Science College, Bhosare.

Principal
K.N.Bhise Arts, Commerce and Vinayakrao Patil

Field Visit Report

Field visit provides real world experience, increase the quality of education and improve the social relation outside the four wall of class room .Field visits are enriching experience for student. In additional to presenting or clarifying concept of e-Banking , Online services , Google pay , Smart Cards, Financial transaction etc . Field Visit provide opportunities for social and personal growth and motivation to learn. It offers student a unique educational learning experience.

Every year we conduct various Field Visit for the student of Hindi Department to provide subject knowledge and competency . In this academic year , on 13th Feb,2020 We visit to the Bank o f Maharashtra at Kurduwadi with our participated students . Eight (08) students from the department of Hindi participated actively for the Bank Visit . Student collected various information about e-Banking and its technical uses. Prof. Dr. M.N. Salunkhe (HOD) gave detailed information about the Field Visit.

A) Objective of Field Visit / Project-

1. Introduce the information about Functional Hindi.
2. Promote the student for research work.
3. Use of Hindi Language in the society
4. To provide the knowledge about e-Banking , Smart cards , Financial transaction through mobile banking, checks, PTM, Google transaction, ATM etc.
5. The importance of Hindi Language as the second most spoken language in the world and official language as a part of India.

B) Outcomes-

1. Students learnt who to fill demand Draft, Withdraw Sleep and Deposit sleep.
2. Students aware how to use ATM and Smart Cards.
3. Students learnt use of Hindi Language in Banking.
4. Students knew who to use e-Banking and Applications related to banking
5. Students become aware about how to prepare competitive examination to get job in Banks.

Subject: About site visit by TY BA students

Respected sir,

As per the subject, students from your reputed institute visited our Bank Of Maharashtra, Kurduwadi premices on 13 Feb 2020. They got to know about daily banking activities which include RTGS, NEFT as well as CDR and RD. They were very keen to understand all the activities. They also got to know Internet Banking, UPI and Mobile Banking which is very useful to everyone.

Student showed a lot of gratitude towards the opportunity they got and made sure they took all the benifits they could get.

Thank you

Field Project Report
Year-2019-20

Programme name of field project – Historical Changes.

An efficient and active department of History is in the college, it conducts so many programmers, lectures, seminars and conference for the students to enrich their subject knowledge, improve their stage daring and to mold their career for bright future. As well as forum tries to create awareness among the students about social values and their responsibilities to protect environment.

Thus in January, 2019 Department has given project work for each student of B.A.III who kept history as special subject. So many research topics have been suggested by faculty but ultimate right has been given to students to choose their topic as per their comfort and Convenient. Ample information has been given in classroom while teaching about Nature and Steps of Historical research, Researcher had been provided subject and research topic related books form departmental library.

10 students have completed their Field project. Most of the topics are related to the village or town in which students are living, as well as some of the topic are related to the Historical monuments or famous places which are located at the surrounding area Kurduwadi.

A] Objectives of Research project work:-

- 1] Introduce the historical research methodology for the students
- 2] Promote the research work in local history to enlighten the past of common majority people
- 3] Promote the social harmony by finding out real and true history which would be based on authentic sources.
- 4] Create awareness among the students about importance of protection and conservation of the historical monuments and places.
- 5] Increase the Observation, Description and interpretation capacity of the students.
- 6] Feed the curiosity about local history among students and the society.

B] Nature of the Research :-

Students have freedom to select the research topic as per their Convenience and interest. Historical research methodologies like Interpretation, Narration, and Description can be used by researcher. Observation, interview and questionnaire tools are used to collect data. External and internal criticism methods are used to find out authentic information from available historical sources.

Field Project

Topic: Literacy Rate in Neighboring Community

REPORT

The department of English has taken a field project for the students of B. A. III. The topic of the field project was Literacy Rate in Neighboring Community. The students worked on the given topic according to the suggestions of the Head and teachers of the department. All students of the department actively participated in the field project. The students prepared a questionnaire for the project and collected the information required for the project. Most of the students prepared a plan before the project and followed that according to the guidance of the teachers. They collected the data and analyzed it for finding the results. The students worked on the data, examined it and evaluated the data. The analysis of the data gave the result of the project. The students worked for the project and completed the activity successfully. There were ten students present for the field project.

Report

Field Visit (Year 2019-20)

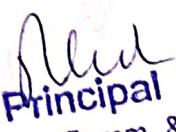

Date:- 06/02/2020

The Chemistry Department was organized a study tour for B.Sc.-III Chemistry students for one day on date 06th February 2020 at CHEMARA PRIVATE LIMITED organic fertilizer manufacturing company and organic farm of pomegranate and grapes at Aran, Tal . Madha, Dist. Solapur. The total number of 24 students were participated in the study tour and 3 Asst. Professors.

On 6th Feb. at 10.30 am. Students and teachers reached at manufacturing plant. Owner of manufacturing company Dr. Amol Patil gave guidance about organic farming. He discussed with students and told that the applications of organic farming. After that they visited organic grapes farm. Here is Dr. Patil also discussed the role of hormones in grape farming also explained limited use of insecticides and fungicides in residue free grapes production. After that they visited to pomegranate farm. Dr. Amol Patil also guided students very well how to role of organic carbon in the soil , chelating of nutrients, role of nutrients in soil, disadvantages of excess inorganic, chemical fertilizer in soil and human health.

After discussions students noted all information and enjoy this visit. After that students thanks to Dr. Amol Patil for giving best knowledge of organic fertilizers. After completion of study tour we have return to college on 06th February 2020 at 6.30 pm.

Head, Department of Chemistry

Total = 24

Total Staff members = 03

Location = Chemara Private Ltd. Organic Fertilizer Manufacturing Company, Aran, Tal. Madha Dist. Solapur

Date :- 06/02/2020

Objective – 1) Provide an exposure to students about practical working environment.

2) The gap between theoretical learning and practical exposure is actually bridged by Laboratory visits.

3) Students can observe and learn as to how theoretical concepts are put to into action.

5) Industry visits help enhance interpersonal skills and communication techniques.

Outcomes:

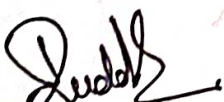

1) Student learned about organic farming.

2) Students can observed and learned as to how theoretical concepts are put to into actions, thereby aiding their practical knowledge.

3) Students learned about types of soil, how to check the soil fertility.

4) Students understand characteristics of ideal fertilizers.

5) Students understand the chelating process.
