1. Introduction

The institute carries the feedback process from various stakeholders. The prime motive behind carrying out this process is to get the inputs from them regarding syllabi and convey their demand to concern authority for improvement. Apart from that, the feedback is also used for the development of academic and physical facilities in the college.

1.1 Objectives of the Feedback

1. To understand the expectations of all the stakeholder regarding the syllabi.
2. To know the real requirement of the students in terms of syllabi.
3. To cater the need academic needs of the students
4. To understand the real challenges faced by the alumni while working in the industry and practical exposure through syllabus learning.
5. To know from the students and alumni whether there is need to make certain changes in the delivery of the syllabi
6. To understand the opinions of the parents about syllabi and the college for making improvement in both- the syllabi and the college.

1.4 Methods of collection and analysis of feedback

1. **Students:** Feedbacks about the syllabi were collected from students at the end of the academic year. The feedback of curriculum is analyzed on the basis of the questions given in the form by feedback committee. Marks for each question are converted into percentage using the formula :

$$\frac{\text{Number of students giving feedback credit} \times 100}{\text{Total number of students giving feedback}}$$

2. **Alumni:** Alumni feedback on curriculum and campus facilities is collected every year. Analysis of the same is done to benefit the current year students. Alumni feedback is also sought in alumni meets conducted time to time.
3. **Parents:** Parents feedback is collected on curriculum and academic procedures and facilities. The feedback is analyzed to implement the valuable suggestions.
4. **Teachers:** Teaching faculty also provides feedback on the curriculum. These feedbacks are also analyzed using the established method.
5. **Employer:** Feedback on the syllabus is also collected from the employers. Analysis of the collected feedback is done.
